EDUCATION

B.Tech.(Computer Science and Engineering)

Uttaranchal University | 2022 – 2026

CGPA: 9.2/10

PROFILE SUMMARY

- Java Full Stack Developer specializing in Spring Boot, Microservices, and Angular with hands-on experience in building scalable enterprise applications.
- Strong in Data Structures & Algorithms with proven ability to design REST APIs, implement secure authentication (JWT), and enable service-to-service communication using WebClient and Feign.
- Experienced working with MySQL, PostgreSQL, Redis, and modern microservices architecture using Eureka and API Gateway.

SKILLS

Programming Languages: Java, JavaScript, C++, C

Framework & Technologies: Spring Boot, Microservices, REST APIs, Spring Security, Hibernate, JPA, System Design-Basics Angular, React.js

Databases: MySQL, PostgreSQL, Redis, MongoDB

Tools & Platforms: Git, GitHub, Postman, Swagger, Eureka, API Gateway

EXPERIENCE

Software Trainee | Altimetrik India Pvt. Ltd.

Jan 2026 - Present

- Trained in Java Full Stack Development with focus on **Spring Boot, Microservices, and Angular**
- Developed **RESTful APIs** with proper validation, exception handling, and layered architecture
- Implemented **JWT-based authentication & authorization** using Spring Security
- Built **inter-service communication** using WebClient and Feign Client
- Gained hands-on experience with **Spring Cloud (Eureka, API Gateway, Config Server)**
- Followed best practices in clean code, modular design, and API documentation

PROJECTS

Portfolio Management System

Tools: Java, Spring Boot, Microservices, Angular, MySQL/PostgreSQL, Redis, Eureka, API Gateway

A scalable portfolio management application that allows investors to manage multiple portfolios, track holdings, and perform buy/sell operations using real-time internally managed market data.

Responsibilities:

- Developed backend microservices using Spring Boot, implementing modules like Trading Service, Market Data Service, and Portfolio Service with RESTful APIs.
- Implemented inter-service communication using WebClient and Feign Client, ensuring seamless data flow between services via API Gateway and Eureka Service Discovery.
- Built a responsive frontend using Angular, integrating APIs through the API Gateway to provide a smooth user experience for portfolio tracking and trading operations.

ACHIEVEMENTS

- Solved 300+ problems on LeetCode, strengthening problem-solving and DSA skills
- Certified in Full Stack Development
